

VISUALEGACY™

Your Story. Simply Told. We'll Help!

What is a Visualegacy?

A Visualegacy is a **short video summary of your life**. A document that can live on long after you do. It is an organized, friendly, 1-on-1 video interview that covers your experiences, your personality - what you have become, what you have learned, and the relationships you have developed. It is a proof of existence. **It is history**. A document that grows in value over time.

It is Your Legacy to Those who will Follow!

The Process

We **schedule** a time and a place to do the Visualegacy on you or family member. Usually, this is at your home, but we can also film at other locations - at your cabin, on a boat, outdoors, at the office, in a hospital room. We even have a production studio you can come to.

We **talk** over the phone, via email, or in person just a bit before so we both can be prepared for the day of the interview - we'll ease any worries or concerns, give you sample questions, give some ideas about what to wear, etc.

On the day of the interview - we come with professional video equipment, a couple of lights, a good microphone and well-trained and experienced personnel. It takes us just a few minutes to get set up and then we'll guide you or your family member through a friendly conversation - first recording the chronological highlights of your life. We'll talk about growing up, family, school, work, the places you've lived, the things you've done, the successes and highlights you've encountered. In our pre-planning conversation, we can discuss the topics to touch upon as well as those to avoid.

We start the conversation with experiences and eventually get to more in depth-content discussing what the experiences have taught you, how they molded you, changed you. Our favorite question to ask is "Why?"

We also work the conversation towards the goal of talking about important relationships, feelings one has for others in their life, and advice or wisdom they might like to give to those who might see the Visualegacy in years to come.

It sounds like a lot to cover, but we've discovered it works. It's also just about the right length to be concise, interesting and watchable. **Your Story! Your Perspective! Your Own Words!**

The whole process takes less than 90 minutes. It doesn't get much more complicated than that. Unless you want it to. We can add pictures, additional interview time with you or with others, edit a shorter highlights version - you tell us - it's your story!

Within a week, you'll get DVD's and / or digital copies and we'll archive multiple digital versions for safe keeping through the ages that you and your family will always have access to - Guaranteed!

Now you can leave behind a personalized legacy, in a visual document, focused on what matters most to you and your posterity.

*It is a basic human need to leave behind our mark
- to believe, to feel, to know we made a difference.*
